SUMMARY

Software Engineer with hands-on experience in full-stack web development, REST API development, machine learning, and AI-powered applications. Proficient in Python, JavaScript, React.js, Node.js, FastAPI, Flask, MySQL, and MongoDB. Experienced in developing and deploying web applications, building and integrating machine learning models, designing backend APIs, and implementing data-driven solutions. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, and software development principles.

SKILLS

Programming Languages: Python, JavaScript, Java, C, SQL, PHP

Frontend: React.js, HTML, CSS

Backend: Node.js, Express.js, Flask, FastAPI, REST APIs

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Postman, Docker, Kubernetes

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Full Stack Developer — Zetacoding Innovative Solutions

Jul 2026 – Present

- Developed and deployed full-stack web applications using React.js, Node.js, Python, and Flask, implementing responsive interfaces and backend functionality.
- Developed and integrated machine learning solutions and REST APIs into web applications to support data-driven features and application workflows.

Machine Learning & Generative AI Intern — Contriver

Feb 2026 – May 2026

- Built 3 machine learning models using Python and Scikit-learn for predictive analytics and integrated them into REST API-based applications.
- Performed data preprocessing and feature engineering on datasets containing **10,000+ records** for model training and evaluation.

Web Development Intern — TSIAR Sports Team and Club

Jun 2025 – Dec 2025

- Developed automation tools for event-management workflows, reducing manual processing by 30%.
- Supported backend development, database management, and maintenance of 2 web applications.

PROJECTS

Pure Care Auto Accessories | Client Website

Live: purecareae.com

Tech Stack: React.js, Node.js, Express.js, MySQL, REST APIs

- Developed and deployed a production website for a UAE-based automotive care business, implementing responsive pages for services, products, blogs, gallery, and customer enquiries.
- Implemented responsive UI, customer enquiry workflows, and production deployment.

KE Enterprises | Client Website

Live: keenterprises.in

Tech Stack: React.js, Node.js, Express.js

- Developed and deployed a responsive business website for KE Enterprises, presenting company information, products, and services.
- Implemented frontend components, responsive layouts, and production deployment.

GoatIndia | Full Stack E-Commerce Platform

Live: goatindia.in

Tech Stack: React.js, Node.js, Express.js, PHP, REST APIs

- Developed and deployed a full-stack e-commerce platform with user authentication, product management, and order-processing functionality.
- Built REST APIs and integrated frontend and backend services for product and order management.

Maroof — E-Commerce Website

Live: marooffc.com

Tech Stack: React.js | Node.js | Express.js | REST APIs

- Developed and deployed an e-commerce website for a **Dubai-based cosmetics business**.
- Implemented product browsing and category-based shopping experiences across **Face, Eyes, Lips, and product collections**.
- Built responsive frontend components and integrated e-commerce functionality for production use.
- Implemented customer-facing pages including product discovery, company information, contact, returns, and privacy sections.

CERTIFICATIONS

- **Legacy JavaScript Algorithms and Data Structures V7** — freeCodeCamp
- **Python 101 for Data Science** — Cognitive Class
- **Introduction to Prompt Engineering for Generative AI** — LinkedIn Learning

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science and Engineering
S.K.S.V.M.A. College of Engineering and Technology | 2022 - 2026

CGPA: 8.71/10
